Guntur, Andhra Pradesh | Open to relocation (Hyderabad, Bangalore, Remote)

PROFESSIONAL SUMMARY

Final-year B.Tech (Information Technology) student and Data Analyst Intern with hands-on experience in Python, SQL, and Power BI, seeking a full-time Data Analyst role from June 2026. Delivered 4 end-to-end analytics projects spanning customer segmentation, sales forecasting, and NLP-based text classification. Comfortable translating raw business data into dashboards and actionable insights; open to relocation.

EXPERIENCE

Data Analyst Intern — Shamgar Software Solution *Visakhapatnam | Jan 18, 2025 – Apr 18, 2025 · 4 Months*

- Cleaned and preprocessed 10+ structured business datasets (Python, Pandas, NumPy), reducing manual data-prep time by an estimated 30% through reusable preprocessing scripts.
- Built and evaluated classification/regression models (Scikit-learn) to surface trends in business datasets, improving stakeholder confidence in reported insights.
- Designed 5+ automated reporting dashboards, cutting weekly manual reporting effort by ~4 hours and standardizing KPI tracking across teams.

PROJECTS

Student Performance Indicator — Deployed ML Application | *Python, Scikit-learn, CatBoost, XGBoost, Flask, AWS*

- Built an end-to-end ML pipeline to predict student math scores from demographic and academic features using 1,000+ records.
- Trained and compared 10+ regression models (CatBoost, XGBoost, Random Forest); achieved best R^2 score of 0.88 with CatBoost.
- Engineered a modular pipeline for data ingestion, transformation, and model training, then deployed it as a live Flask web app on AWS for real-time predictions.

Customer Segmentation & RFM Analysis | *Python, SQL, Power BI, K-Means Clustering*

- Segmented 500K+ e-commerce customers using RFM scoring (Recency, Frequency, Monetary) in SQL.
- Applied K-Means clustering to identify 4 revenue-based customer tiers for targeted marketing.
- Built a Power BI dashboard revealing the high-value segment drove 62% of total revenue.

Sales Forecast & KPI Dashboard | *Power BI, DAX, Excel*

- Analyzed 5K+ sales records using Pivot Tables, VLOOKUP, INDEX-MATCH, and Power Query.
- Built a Power BI dashboard with 10+ DAX measures for YoY growth, moving averages, and forecast accuracy.
- Improved reporting efficiency by 20% through Excel automation and structured KPI templates.

HR Attrition Analytics Dashboard | *Python, Power BI, DAX*

- Analyzed the IBM HR dataset (1.4K+ records) to identify key drivers of employee attrition by department and salary band.
- Built an interactive Power BI dashboard flagging the top 3 attrition risk factors using DAX measures.

TECHNICAL SKILLS

Languages: Python, SQL

Libraries: Pandas, NumPy, Scikit-learn, XGBoost, CatBoost, Flask, Matplotlib, Seaborn, NLTK

Excel: Advanced Excel, Pivot Tables, Power Query, VLOOKUP, XLOOKUP, INDEX-MATCH, Conditional Formatting

Visualization: Power BI, DAX, Tableau, Excel Dashboards

Analytics: EDA, ETL, Data Cleaning, Statistical Analysis, Feature Engineering, Customer Segmentation

Tools: Git, Jupyter Notebook, VS Code, Streamlit, AWS

EDUCATION

KKR & KSR Institute of Technology and Sciences, Guntur

B.Tech — Information Technology | Aug 2022 – Jun 2026

Palanadu Junior College, Macharla

Intermediate MPC | 2020 – 2022 | 59.4%

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera
- IBM Data Science Professional Certificate — Coursera
- Machine Learning Specialization — Andrew Ng, Coursera
